A POWERFUL RESOURCE FOR UROLOGISTS
AT YOUR FINGERTIPS, ANYWHERE, ANYTIME

Istanbul, Turkey
September 3, 2016
Istanbul Medipol University

Don't Miss this State-of-the-Art Event

On September 3, 2016, the Société Internationale d'Urologie, in collaboration with Istanbul Medipol University, will launch the Bench-to-Bedside (B2B) Meeting on Prostate Cancer, which will provide urologists the opportunity to learn the latest cutting-edge research in prostate cancer from a multidisciplinary perspective.

Join Dr. Jean de la Rosette and Prof. Sabahattin Aydin in Istanbul as they lead world-class experts from across many disciplines to bring you the hottest translational research topics in prostate cancer. Themes include mechanisms and biology, engineering and molecular imaging, and interdisciplinary team approach.

Registration is free

Meeting website: www.b2bbenchtobedside.org

TIME	PRESENTATION	SPEAKERS
0845 0900	Opening Remarks	Sabahattin Aydin, Jean de la Rosette
	Hypothesis	Gazi Yigitbasi
0900 1030	Mechanisms and Biology	Ertugrul Kilic, Derya Balbay, Oner Sanli
	• Prostate Cancer Stem Cell	Mustafa Ozen
	• Common Cancers: Lung, Ovary, Breast, Colorectal and Prostate	Yasemin Yozgat
	• Prostate Cancer and Exosomes	Mustafa Isin
	• Circulating Tumor Cells: Individual Level Surrogates	Peter Black
	• Reprogramming Mechanism in Normal Physiology and in Cancer: Similarities, Opportunities and Challenges	Esra Cagavi
	• Challenges for Urologists	Oktay Akca
1030-1100 Coffee Break		
1100 1215	Mechanisms and Biology	Ahmet Muslumanoglu, Cuneyd Parlayan, Turhan Caskurlu
	• Resistance to Androgen Targeted Agents	Nathan Lack
	• From Estrogen to Androgen Receptor: Mediator Co-activator Complex	Alper Murat Cevher
	• Efficacious Androgen Receptor Antagonists: Novel Drug Discovery	Mustafa Guzel
	• Precision Oncology: Transition from Novel Therapies That Target the Androgen Axis to Novel Agents Targeting Alternative Pathways	Peter Black
	• Prostate Cancer Immunotherapy	Tolga Sutlu
1215-1315 Lunch Buffet		
1315 1430	Engineering	Ali Riza Kural, Yasar Ozgok, Ziya Akbulut
	• Heterogeneous Disease: Prostate Cancer	Selcuk Guven
	• Needle-based Optical Coherence Tomography	Pilar Laguna
	• Real Time 3D Histopathology	Martijn de Bruin
	• Multiparametric Ultrasound	Jean de la Rosette
	• Multiparametric MRI: Beyond Prostate	Cengiz Erol
1430-1500 Coffee Break		
1500 1600	Molecular Imaging	Ali Ihsan Tasci, Giray Karalezli, Asif Yildirim
	• Molecular Targeting Agents	Cuneyt Turkmen
	• Experimental and Near-term Future	Meltem Caglar Tuncali
	• Image-guided Radical Prostatectomy	Dogu Teber
	• Integrating Medical Technology into Clinical Urological Practice	Jean de la Rosette
1600 1730	Panel: Interdisciplinary Team Approach	Tarik Esen, Pilar Laguna, Mustafa Ozen, Sevil Baybek, Hale Caglar Basak, Atadan Tunaci, Rahim Horuz, Tamer Atasever
	Human (Cancer Surgery)	Selami Albayrak
	Closing Remarks	Selami Albayrak, Jean de la Rosette
